

This week we are recapping on 2D and 3D shapes.

LO: To identify the properties of 3D shapes and their nets (bronze)

1a. Ben and Chloe have made nets of a square-based pyramid. Check which nets would work and explain any mistakes which have been made.

2a. Lily has not been able to finish this net of a cube. Complete the net for her.

3a. Karl is thinking about 3D shapes.

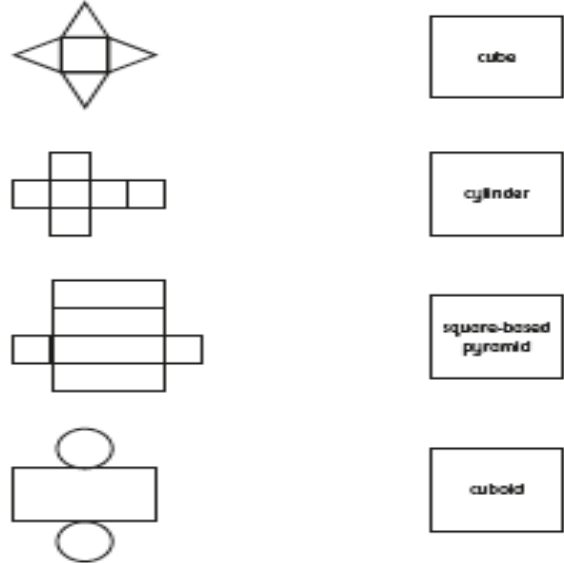

Is he correct? Explain your answer.

4

Match the net to the correct label.

5

Ron is drawing the net of this cube.

a) Here is part of his net.

Complete the net.

b) Complete the net in a different way.

6

Tick the nets that will make a cube.

7

Complete the sentences.

- a) The faces of a _____ are all square.
- b) A square-based pyramid has triangular faces and square face.
- c) The net of a _____ is made up of 2 circles and a rectangle.

This week we are recapping on 2D and 3D shapes.

LO: To identify the properties of 3D shapes and their nets (silver)

1 Ian, Katya and Tom have made nets of a cylinder. Check which nets would work and explain any mistakes which have been made.

2 Doug has not been able to finish this net of a truncated triangular-based pyramid. Complete the net for him.

3 Leia is thinking about 3D shapes.

I will always need a sector of a circle to make a circular-based cone.

Is she correct? Explain your answer.

4

The net of a cuboid is made up of 4 rectangles and 2 squares.

Whitney

The net of a cuboid is made up of 6 rectangles.

Rosie

Who do you agree with? Circle your answer.

Whitney Rosie both of them

Explain your reasons.

5 Draw the net for a triangular prism on the squared grid.

6 Match each net to its 3D shape.

7 Here is the net of a cube. The net is made into a cube. Which two corners will meet the corner marked with a red dot? Mark them with a cross.

This week we are recapping on 2D and 3D shapes.

LO: To identify the properties of 3D shapes and their nets (gold)

1 Flo, Anna and Stu have made nets of a cube with a truncated square-based pyramid on top. Check which nets would work and explain any mistakes which have been made.

2 Nicki has only drawn the base for a net of this 3D shape. Complete the net for her.

3 Rohit is thinking about 3D shapes.

I will always need eight isosceles triangles to make an octahedron.

Is he correct? Explain your answer.

4 Draw an accurate net for this cuboid on the squared grid.

5 a) Complete a drawing of the net for the tetrahedron.

b) Draw the net of this hexagonal pyramid.

6 Tick the diagram that is the net of a cone.

7 Which of these shapes is the net of a prism? Tick your answer. Talk about your reasoning with a partner.
