

## Home Learning

Dear Parents and Carers, I do hope that things are going well at home and you are keeping safe. In light of the school closure, some of the children have been sent home with a study pack which contains activities, these activities can also be accessed on the school website. They also have their 'Purple Mash' login. Activities for this week (week 2), are now on the website. Your child will be able to access work and support via our school website under the Home Learning Tab.

We have put a suggested timetable on the website, to help you structure the day for your child. We do hope that you are finding it useful.

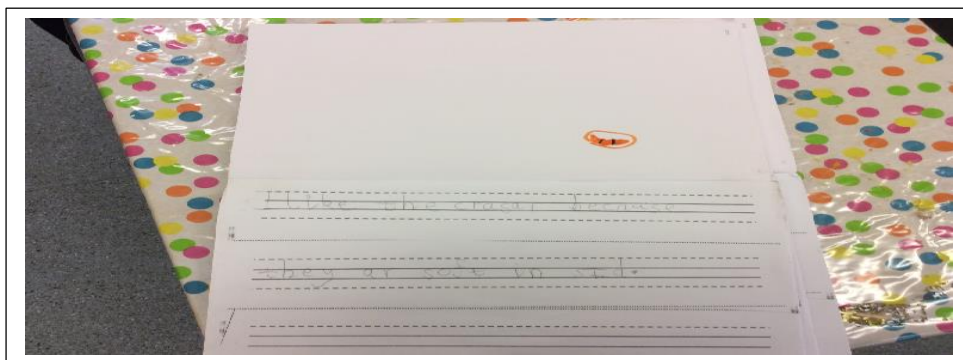

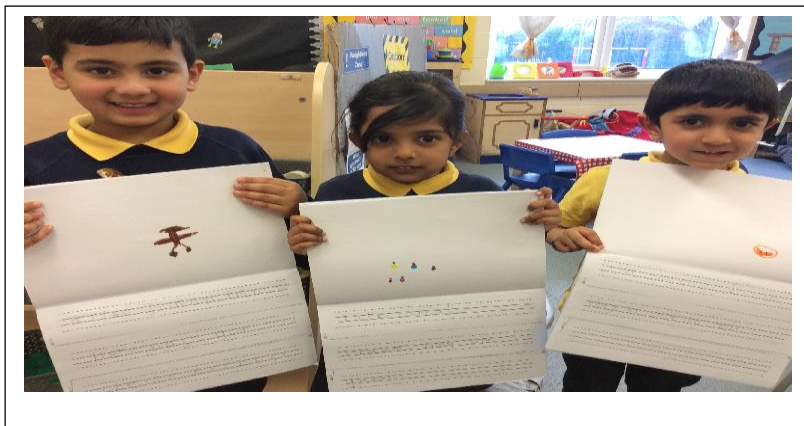

- Children have all been provided with an exercise book to record their learning and it is the expectation that an appropriate level of work be completed each day.
- Exercise books can be personalised and prizes will be given for excellent work. A high standard of presentation is expected.
- If you want to demonstrate learning in an alternative way e.g. presentations, models, posters, then please share these with us using the following email:  
info@broadfield.oldham.sch.uk
- Parents can contact school for support via the school email address  
info@broadfield.oldham.sch.uk
- If you do not have access to the internet, please can you contact school as soon as possible.

## Happy days

## Learning

The following children have been working really hard in their class with their reading and writing. Recently, they visited my office to share their work with me. Well done to all of them, I do hope that they are continuing with their learning at home.

## Sports News

A few weeks ago our tag rugby team competed at Hathershaw. They showed great team work and determination, resulting in them finishing in first place. Well done everybody.
