

STAINED GLASS EGGS

Your task is to decorate your windows with stained glass Easter eggs.

For this activity you will need card, glue, scissors and a range of tissue paper.

Cut out an egg shaped oval from paper or card, carefully cut a pattern out of the paper or card making sure it is thick enough to stick your coloured paper to. Once you have cut out your frame stick a selection of coloured paper to it so that all of the holes are covered.

Below are some photos for inspiration.
