

Thursday: Compare and order numbers to 100,00

For today's work we will be looking at comparing and ordering numbers. Read the questions carefully.

4a. The table shows information about ticket sales.

Type of ticket	Number of sales
Adult	40,000 + 5,000 + 70 + 4
Student	4,501
Junior (11-15)	forty-two thousand
Child (<11)	15,713

Use the correct symbol to complete the statements.

The number of adult tickets sold		The number of child tickets sold
The number of student tickets sold		The number of junior tickets sold

4b. The table shows information about mountains.

Mountain	Elevation in feet
K2	28,251
Lhotse	20,000 + 7,000 + 900 + 40
Mount Everest	29,029
Kangchenjunga	twenty-eight thousand, one hundred and sixty-nine

Use the correct symbol to complete the statements.

The height of K2		The height of Lhotse
The height of Mount Everest		The height of Kangchenjunga
