Tuesday

Hello again!

Yesterday we did some division revision (it rhymes!)

Now, try using the numberline for division! If you find this is easy enough, why not have a go at writing some on a page of your home-learning book for your class friends when we get back in?

Click on this link https://www.bbc.co.uk/bitesize/topics/zqbg87h/articles/zyp7b82

The page will look like this

A number line can be used to divide. To work out 30 ÷ 5, count how many 'jumps' of 5 it takes to get from 0 to 30. 6 'jumps' or 'groups' of 5 means 30 ÷ 5 = 6.

Good Luck! I am thinking of you all every day!
