

Tuesday

Hello lovely Willow Class!

Today's lesson is all about showing numbers up to 100 in different ways.

Click onto BBC Bitesize by clicking on this link.

<https://www.bbc.co.uk/bitesize/articles/z7cthbk>

Here you will find a video, a slideshow and 2 activities teaching you lots of ways to make 100! The page looks like this

Showing Numbers

How many ways can we show numbers?

4 tens and 3 ones

T	O
4	3

43

forty-three

```
graph TD; 43((43)) --- 40((40)); 43 --- 3((3))
```

All of these ways look different but they all show the same value.

You can save your work by pressing the 'my bitesize' button so you can back and practice again! **This is a very important skill to help you to get ready for year 3 so you can do it a few times and even make some up of your own!**

Good Luck and stay safe!

Mrs Despard x
