

Week Beginning 15.06.2020 Writing Year 5 and 6.

This week we are going to be focusing on *GEOGRAPHY*; we are going to be thinking about 'Our Neighbours' across the world and comparing and contrasting them with the UK. This week we are going to focus on different continents

Monday

Using the template provided we would like you to research the continent of Africa. Use different sources to find out the facts you need to create a fact file for this continent. As a comparison we would also like to find out how Africa as a continent has been affected by Coronavirus, for example, how many people have contracted the virus? How many have recovered/died from it? Which country in this continent has been the worst affected? Why might this be?

Tuesday

Using the template provided we would like you to research the continent of Antarctica. Use different sources to find out the facts you need to create a fact file for this continent. As a comparison we would also like to find out how as a continent, Antarctica has been affected by Coronavirus, for example, how many people have contracted the virus? How many have recovered/died from it? Which country in this continent has been the worst affected? Why might this be?

Wednesday

Using the template provided we would like you to research the continent of Asia. Use different sources to find out the facts you need to create a fact file for this continent. As a comparison we would also like to find out how as a continent, Asia has been affected by Coronavirus, for example, how many people have contracted the virus? How many have recovered/died from it? Which country in this continent has been the worst affected? Why might this be?

Thursday

Using the template provided we would like you to research the continent of Australia. Use different sources to find out the facts you need to create a fact file for this continent. As a comparison we would also like to find out how as a continent, Australia has been affected by Coronavirus, for example, how many people have contracted the virus? How many have recovered/died from it? Which country in this continent has been the worst affected? Why might this be?

Friday

Using the template provided we would like you to research the continent of Europe. Use different sources to find out the facts you need to create a fact file for this continent. As a comparison we would also like to find out how as a continent, Europe has been affected by Coronavirus, for example, how many people have contracted the virus? How many have recovered/died from it? Which country in this continent has been the worst affected? Why might this be?
