

## Homework Menu

**This half term we will be going over everything we have learnt in science and seeing how much we have remembered! We have covered many topics including seasonal changes, identifying habitats, growing plants and growth and survival.**

**Complete these activities and let's see what wonderful**

**Experiment time!**  
Look at the different experiment sheets and choose a couple to carry out.

**Take some pictures of your experiments and email to school!**

Can you create a poster to show the 4 four different seasons. Think about what the weather is like?, what the trees may look like?, what kind of clothes we may wear and what kind of animals you may see. Be as creative as you can.

Let us investigate!  
Look at the sheet attached. Have a go at completing this experiment. It is all about ice and melting. Let us see what happens.

Plants have lots of different parts and functions. Complete the sheet to show the function of each part of the plant.

Once you have done that, can you draw your favourite plant and label all of its parts.

Watch the videos on BBC bitesize about the lifecycle of a plant.  
<https://www.bbc.co.uk/bitesize/topics/zx882hv/articles/z3c2xnb>  
<https://www.bbc.co.uk/bitesize/topics/zpxnyrd/articles/z2vdjxs>  
See what you have learnt and complete the quiz.

Design a habitat for a minibeast and tell me why this would be the best habitat for this animal. Think about where the habitat would be and the different materials it would have in it.

Watch the video about food chains.  
<https://www.bbc.co.uk/bitesize/topics/zx882hv/articles/z3c2xnb>

Play the game to see what you have learnt.

Can you draw your own food chains?
