

Tuesday: To use a formal written method to subtract whole numbers.

All that is meant by using a formal written method, is to line up your numbers correctly underneath each other, with each digit in the correct column. Remember with subtraction you need to exchange from the next column if the digit on the top is smaller than the digit on the bottom.

For example:

$$\begin{array}{r} 711\ 121 \\ 82\ 730 \\ - 26\ 824 \\ \hline 55\ 906 \end{array}$$

$$\begin{array}{r} 31291 \\ 4307 \\ - 1648 \\ \hline 2659 \end{array}$$

$$\begin{array}{r} 31291 \\ 4307 \\ - 1648 \\ \hline 2659 \end{array}$$

Copy and complete, set out as in the examples above.

1) $2763 - 1435 =$

2) $4518 - 3556 =$

3) $3950 - 1442 =$

4) $7426 - 3762 =$

5) $25\ 846 - 12\ 475 =$

6) $19\ 523 - 7\ 398 =$

7) $40\ 750 - 35\ 383 =$

8) $28\ 259 - 10\ 748 =$

CHALLENGE

Copy and complete, set out as in the examples above.

1) $122\ 940 - 13\ 472 =$

2) $536\ 017 - 329\ 643 =$

3) $851\ 329 - 257\ 082 =$

4) $374\ 806 - 209\ 877 =$

5) $945\ 293 - 762\ 597 =$

6) $203\ 468 - 139\ 470 =$

7) $710\ 534 - 555\ 168 =$

8) $486\ 052 - 336\ 174 =$
