

Wednesday

Hello Willow Class, today we will learn how to compare the mass (mass means weight) of objects. We will use the language of heavier, lighter and equal to. Do you remember the crocodile signs we did in class? You can watch the little video clip on the page as a reminder.

The page looks like this:

### Comparing objects

Use the words heavier and lighter to compare the objects.

Here are some examples:

The pencil is **lighter than** the shoe.

This is the same as writing:

The pencil  $<$  the shoe.

The ball is **heavier than** the flower.

This is the same as writing:

The ball is  $>$  the flower.

The apple is **equal to** the ball.

This is the same as writing:

The apple is  $=$  to the ball.

I am thinking of you all every day!

Sending big hugs ;)

Mrs Despard x
