

What and where is Asia?

The largest continent

Sort the area of the continents in descending order (biggest to smallest). Area is in **millions** of square km.

North America 24.5, Antarctica 13.2, Africa 30.1, Oceania 8.1, Europe, 9.9, Asia 44.6, South America 17.8

LO: To identify key features of Asia

Asia

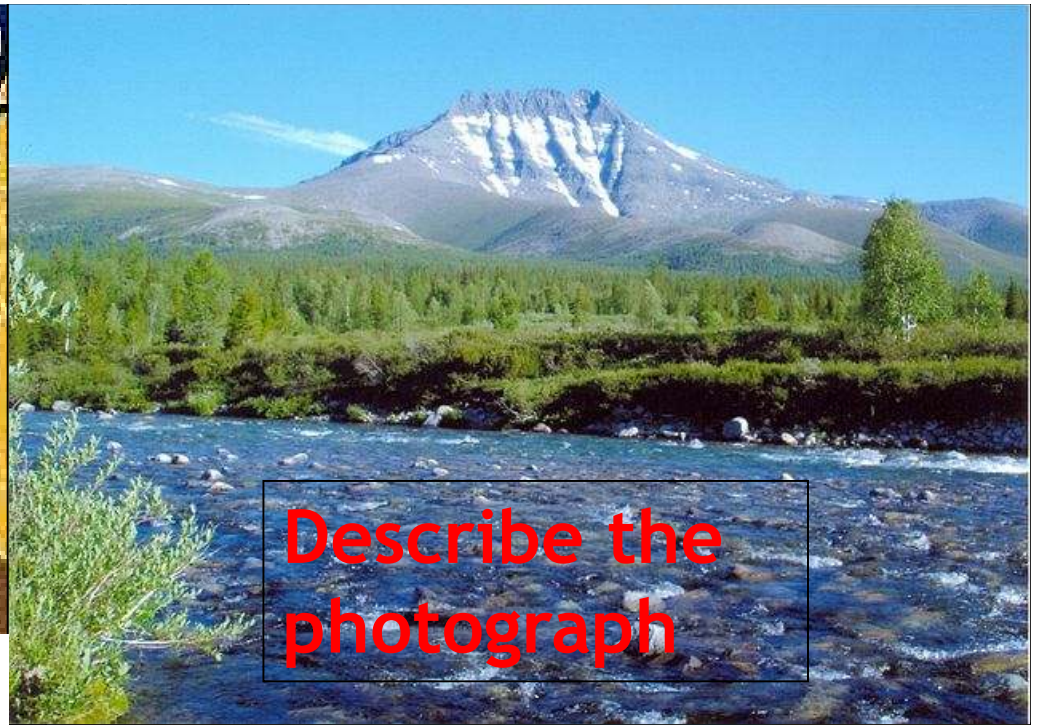

Why are some parts of Asia 'sand' coloured and other parts look green?

Three Oceans are shown on this map and some seas; how many can you name?

What other continents are shown on the map?

Look at the thick yellow curve in the centre of the image. What do you think it is?

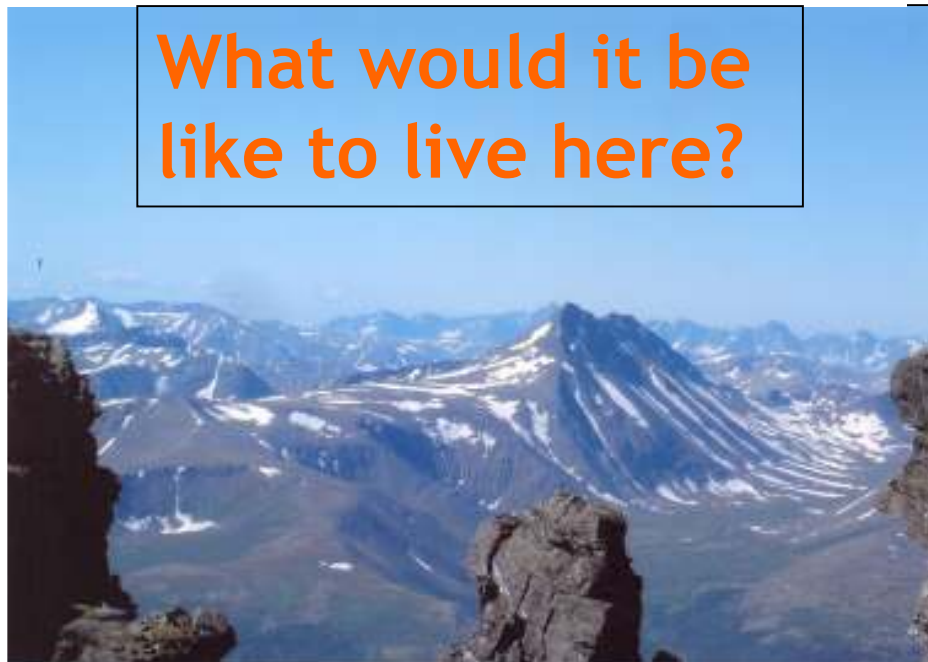

Describe the photograph

What is so special about the Ural Mountains?

What would it be like to live here?

Where are they?

Challenge

How many Asian countries can you list without looking at a map? (There are 50.)

Can you think of more than 5?
