

This week we are trying different maths investigations

Four Fours

Can you use the number 4, four times, with any operations, to make every number from 1 to 20? Remember the rules of BODMAS.

e.g. $4 \times 4 - 4 + 4^2 = 28$

1		11	
2		12	
3		13	
4		14	
5		15	
6		16	
7		17	
8		18	
9		19	
10		20
