

Animal themed grammar activities.

For this weeks SPAG learning click on the link below to access some fantastic lessons that link in with our current topic!

Link - <https://www.naturalcurriculum.co.uk/school-closure-home-learning/>

Choose your year group.

Read the information and watch the clip.

The screenshot shows a website page with the following content:

- About:** Bee-eater birds are brightly coloured, fast, and fierce. They get their name from their ability to catch bees, wasps, and other flying insects in mid-air with their long, down-curved beaks. In this clip, we will see how a flock of bee-eaters cleverly use an elephant passing by to help them get some tasty insects to munch on.
- Image:** A photograph of an elephant in a savanna with a bee-eater bird flying nearby.
- Literacy idea:** Write a set of instructions for a bee-eater bird on how to catch insects using the technique in the video. For example:
 1. Look out for a large animal, such as an elephant.
 2. Wait until it is walking through some long grass where insects might be hiding.
 3. ...
 4. ...
 5. ...
- Wider curriculum idea:** Choose your favourite image of a bee-eater bird from animals.sandiegozoo.org and draw it as accurately as possible. Use colours if you can!

Navigation buttons at the bottom include: Bee-eater birds, Bobbin thrushes, Ouzel, Black tern, Robin, and Hummingbird. A footer note states: 'Use of the clips on this site in the classroom requires an EBC Licence. Use of the clips for home learning requires a TV Licence.'

Then have a go at the activity.

Once you have finished, choose a different animal from the selection below and complete the activity the following day. There are plenty to choose from so you can have a go at one everyday next week.

Have fun! 😊
