

Paws, claws & whiskers

CHESTER ZOO

As Chester Zoo is now going to open from the 15th June why not organise a trip with your family to see and learn about all the different and fascinating animals that live there. You could record a diary of your visit with photographs and write about what you learned and the names of your favourite animals. If you can't visit the zoo, try a virtual visit instead. See below for details.

Welcome to our new topic for this term - 'Paws, claws and whiskers'. Choose the activities listed to complete or make up your own! Remember to keep sending in pictures of your learning because we really enjoy looking at all the fantastic work you are completing at home! Keep safe and hopefully see you all soon! 😊

CLICK ON THIS LINK

<https://www.chesterzoo.org/virtual-zoo-2/> where you can see and learn about some fascinating zoo animals from the comfort of your home. Write down some interesting facts, or create a diary/mini book to share what you saw and learned on your virtual day at Chester zoo.

Visit the Chester Zoo website using this link

Choose some activities to complete.

Pick an animal from the picture behind and create a mask. Research this animal see what kind of things it likes to do. Do it climb trees? Does it creep around slowly? You could even try and trick the people you live with into thinking you this animal has invaded your house!

Imagine you were a zoo keeper and an animal had escaped from your zoo!

Can you create a 'Wanted' poster for the missing animal?
The poster should include:

- A picture of the animal.
- What the animal likes to eat.
- Where the animal was last seen.
- What to do if you find the animal.

Dance lesson!

Find a space in your house and listen to the instructions on BBC Let's Move!

<https://www.bbc.co.uk/programmes/p01n8mtq>

This dance is all about sloths and leopards!

Get your parents to record part of your dance and email it to the school email address.

The best dance may get a prize!

Make some animal crafts using paper plates and materials you have at home. Look at the pictures for some ideas or think of your own!
